

whichClusterIsMyVMIn.pl - Find which Cluster your VM is part of (requires vCenter)

This script allows you to find out which Cluster a given VM is part of.

Requirements

vCenter 2.5.x or 4.x

ESX(i) 3.5.x or 4.x

VI Perl Toolkit or vSphere SDK for Perl

Sample execution

```
[vi-admin@scofield ~]$  
./whichClusterIsMyVMIn.pl --server reflex.primp-industries.com  
--username primp --vmname simplejack.primp-industries.com  
  
Located VM: "simplejack.primp-industries.com"!  
VM: "simplejack.primp-industries.com" is hosted on  
"himalaya.primp-industries.com"  
VM: "simplejack.primp-industries.com" is located on Cluster:  
"PrimpESX-cluster"
```
