

Fusion Video from Macworld ...

DaveP 1,404 posts since

Aug 30, 2003 Nice video of Pat Lee talking about Leopard Server virtualization at Macworld <http://www.viddler.com/explore/tuaw/videos/38/>. Great to see Pat for real! Also there was a great wallpaper on the demo machines. Any chance we could have a copy? (Note the competition have just done this?) 😊 Tags: fusion, leopard
