

Virtual Center Update 1 ...

[kryichek](#) 186 posts since

Sep 27, 2005 Has anyone tried to apply this update? I would be upgrading from 2.50 build 64192 to Update 1. I am interested to hear about any gotchas.

I plan on upgrading my VC and Esx servers to .1 next week. I'll post my do and don't after I'm done.

 in response to: [peacey](#) As a follow up.... I upgraded my VC to update 1 a few weeks ago. I had no problems with the upgrade and everything has been working as expected since the upgrade. It was a very uneventful upgrade. 😊
