[Pat Lee](#) 1,192 posts since

Jan 3, 2007 Hope everyone is well! The VMware Fusion team has been working their butts off to get VMware Fusion 2 ready to go.

So, this week at VMworld in Las Vegas, some of us will be there talking about VMware Fusion 2 at the VMware booth, there are two VMware Fusion 2 specific sessions, and multiple birds of a feather sessions.

If you are going to be in Vegas for VMworld this week, please come by the booth and say hello and let us know here in the forums in case we can come up with time for a quick meetup with you all!

Thanks,

Pat Lee
