

VMWare Server on XP 64 bit ...

[Firemaple](#) 2 posts since

Nov 14, 2008

I am currently getting "The System administrator has set policies to prevent this installation" when trying to install VMServer Console 2.

I read that ppl have installed a patch for Win Server 2003 and it fixed the issue.

Is it the same for XP 64 bit?

Thanks!

Firemaple

Use the same MS KB925336. It has three solutions. A hot fix for 2003, a Registry fix and a policy fix. I used the third and it works fine.

Enjoy, John.

Host and Guest Systems:

Windows XP Pro x64 Edition;

VMware Server 2.0.0, Build 116503
