Jan 3, 2007 The VMware Fusion team is having a user meetup to schmooze with our beloved user base at Macworld. Come join the Fusion team, from the people who design and implement the software to those that help promote it, we'll all be there at the Thirsty Bear, just down the street from Moscone.

We'll be providing appetizers, but you have to buy your own beer.

Come say hi and pick up a "My Mac Loves VMware" laptop or bumper sticker before the mayhem of Macworld ensues. Tell your friends and bring 'em along.
