You can use SCP. Not sure about SFTP. You may need to allow SSH for SCP. Pls refer this links:

<http://www.yellow-bricks.com/2008/08/10/howto-esxi-and-ssh/>

[http://www.vm-help.com/esx/esx3i/ESXi\\_enable\\_SSH.php](http://www.vm-help.com/esx/esx3i/ESXi_enable_SSH.php)

Shan

Yes. Trial version is the same of full version. Just time limited.

Hey Shan,

Thanks for quick answer....

Actually i am using this eval version for some developement version so not able to FTP the file from java code. So was confuse.

if you can help me with the same will be great

Thanks

[http://www.vm-help.com/esx/esx3i/ESXi\\_enable\\_FTP.php](http://www.vm-help.com/esx/esx3i/ESXi_enable_FTP.php)

Shan

PS: I never tried FTP on ESXi and subject to risk.

👤 in response to: [jkumbhani](#) Actually i am using this eval version for some developement version so not able to FTP the file from java code.

FTP is not SFTP or SCP.

This is disabled by default also in the licensed version.

In the link above you have the way to enable it.

Thanks for you help!!!!

For now we have developed SCP Connector for the same.
