

Which Adapters are installed with vCOPS

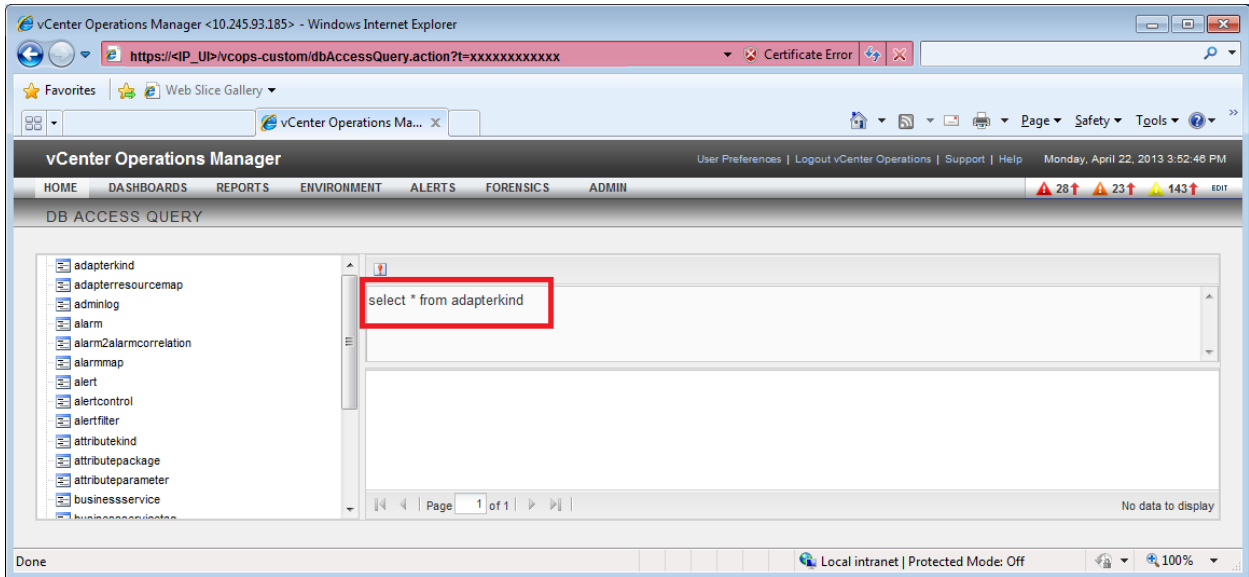

Logon to https://<IP_UI>/vcops-custom/dbAccessQuery.action

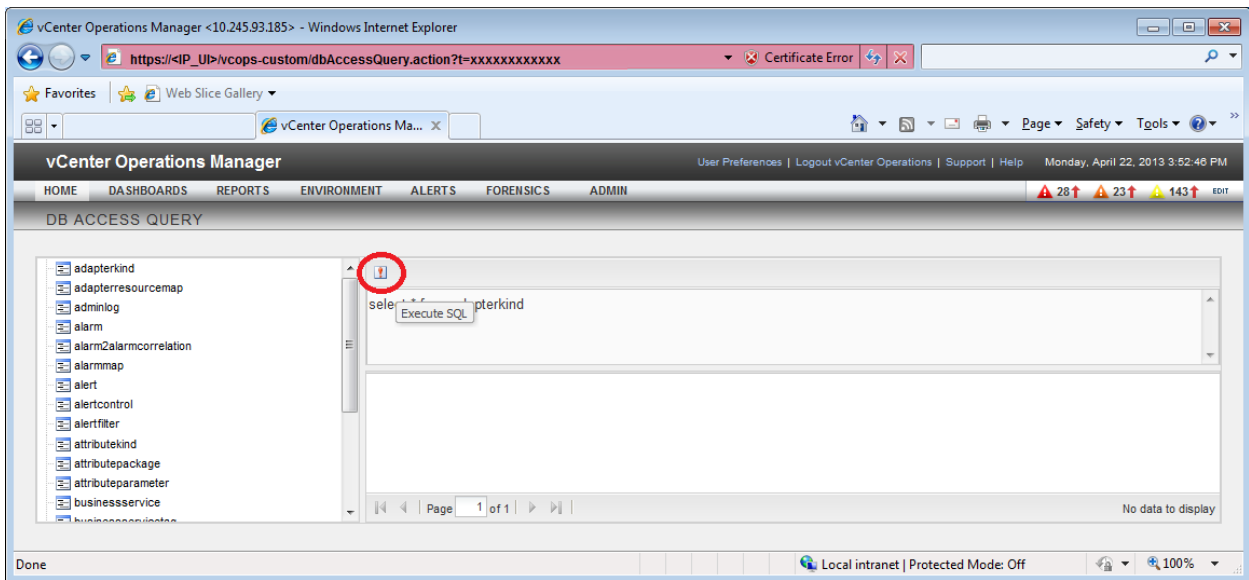

After you logged onto you'll see the following interface

Insert the following query `select * from adapterkind` and execute the query

Push the Button above the Query Interface

The installed vCOPS Adapters will be displayed.

vCenter Operations Manager <10.245.93.185> - Windows Internet Explorer
