Networking

Failed to power on virtual machine MAC-Test. Impermissible static Ethernet address: '00:0c:29:27:e7:11'. It conflicts with VMware reserved MACs. Click here for more details. [Dismiss](#)

VMware Tools is not installed in this virtual machine. VMware Tools allows detailed guest information to be displayed as well as allowing you to perform operations on the guest OS, e.g. graceful shutdown, reboot, etc. You should install VMware Tools.
