Select a compute resource

VM origin ⓘ

Select a cluster, host, vApp or resource pool to run the virtual machines.

A screenshot of the vSphere inventory tree. The tree is expanded to show a 'Datacenter' folder, which contains a 'Cluster' folder. The 'Cluster' folder is selected and highlighted with a dark blue background. The 'Cluster' folder contains a 'Host' folder, which is partially visible.

Compatibility

ⓘ Compatibility check took too long to complete. Please check vCenter Server logs for more details.
